

## Welcome to the next generation of consumer pre-qualification!

QuickQualify Xpress simplifies web-based and mobile pre-qualification by drastically reducing the data entry required by the consumer.

QuickQualify from 700Credit was introduced to simplify the pre-qualification process by reducing the amount of personal information required for a soft-pull to be performed on a consumer's credit file. Now QuickQualify Xpress further reduces the keystrokes necessary for consumers to get prequalified, reducing friction and creating a better customer experience.

Available for both the mobile and web-based environments, QuickQualify Xpress asks only for the consumer's zip code and last 4 digits of the SSN, before automatically filling in the demographic information.

Benefits to QuickQualify Xpress include:

- » Soft-pull solution, no effect to consumer's credit file
- » Helps simplify mobile transactions by drastically reducing the required consumer data input
- » Reduces form abandonment, driving more leads to the dealer
