RouteOne has partnered with 700Credit to provide your dealership with a total Identity Verification Solution.

IDOne protects your dealership from theft by utilizing multiple databases to validate your customer's identity.
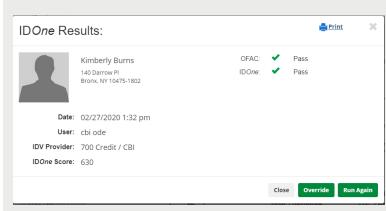

Features of the IDOne platform include:

» Red Flag ID Verification.

» A seamless workflow with results populating in RouteOne's Deal Manager.

» Adjustable settings for risk tolerances based on your dealership's strategy.

» Eliminates duplicate data entry by automatically populating your RouteOne credit application with data used from IDOne.

» Ability to auto-run IDOne every time a credit bureau is pulled.

» Automatically creates audit trails and record keeping.

New IDOne PLUS includes all IDOne features plus:

» Synthetic fraud detection that evaluates a consumers' credit report activity for synthetic fraud indicators.

» MLA Search and Verification.
