WHAT OUR CUSTOMERS THINK

"Since we have gone to 700Credit, our desk managers like the display of the credit bureaus. Our finance managers like the ease of printing our Risk Based Pricing Notices and Adverse Action Letters. Being able to go and look at everything run on a particular day or week in the 700Dealer.com portal is easier than trying to go and look up an individual customer because of its integration with our systems. I like that I can go into my iPhone on the 700Credit app and see what is going on at work when I am not there. Overall, we have been very happy with 700Credit."

Hedrick's Chevrolet

A Letter from Our Managing Director, Ken Hill

I am pleased to invite you to browse the following 700Credit product guide which breaks down, in detail, our robust platform of credit reports, compliance, soft pulls and identity verification products to support every aspect of a dealership's finance requirements.

Over 20 years ago, 700Credit began providing credit reports to a small group of automotive dealerships in California and Florida. Today, our organization has grown to become the largest provider of credit reports and compliance solutions to Automotive, RV, Powersports and Marine dealerships across the US. We are the largest reseller of credit reports from the 3 main bureaus (Equifax, Experian and TransUnion) and maintain a close partnership with each of them so when compliance or regulations change, we know about it immediately.

This booklet provides a brief overview of our entire product line including:

- 1. Credit Report platform: We have seamless integration with over 200+ software platforms making it simple and seamless to pull credit from dealers' in-house systems.
- 2. Automated compliance platform and Learning Management System: We make it simple to remain compliant with every transaction. Our comprehensive web-based, self-paced learning management system (LMS) provides the required training your dealership needs to remain compliant with every transaction and avoid costly fines.
- **3. Soft Pull solutions:** Our Prescreen and Consumer Prequalification platforms are utilized by over 4,000 dealerships across the country, providing important credit information to dealers at the top of the sales funnel.
- 4. Identity Verification and Fraud Detection Platform: Dealership identity fraud became a \$619M dollar problem in 2022 and the numbers are expected to grow exponentially. Fraudsters are becoming more creative in their approach, and 700Credit has a breadth of solutions to catch them before they cost dealers money.

We hope you find this material helpful as you work with your dealer clients to deliver the solutions they need to run their business efficiently and in compliance with the law.

Ken Hill

Ken Hill Managing Director, 700Credit

Credit Report Solutions

700Credit is the largest reseller of credit reports from Experian, Equifax and TransUnion. Dealers have their choice of credit report format and score (FICO or Vantage). Exclusive to 700Credit is our HTML credit report format which makes the information easy to read in a standardized format with a profile summary. Our solution includes an exclusive Auto Summary, providing a "snapshot" of important activity including the consumer's monthly auto payments, interest rate, loan termination date and outstanding balance in an easy to locate and read format.

700Credit's HTML Credit Report

Our HTML Credit Report provides a clear, easy to understand, look at valuable credit file information that can identify open trade lines, confirm identification information and provide a FICO® score.

Score Summary Dashboard

The Score Summary dashboard, shown at the top of the credit report, gives our clients a single, graphical view of each of the credit bureaus and scores they pull on their customers, without having to scroll through each report to see the score.

Identity Verification & Synthetic ID Fraud

Dealership fraud is on the rise, topping one billion dollars in the auto industry. Is your dealership protected? 700Credit is here to protect your store through our all-encompassing Identity Verification and Fraud Detection platform.

700Credit's Identity Verification platform is an automated solution that provides a summary table of results appended to each credit report. Identity Verification provides a vital service by flagging information that on the surface may seem true, but in reality, is questionable. These warning messages focus on high-risk applicants, social security numbers, driver's licenses and addresses.

The following information is provided on a consumer when running 700Credit's Identity Verification solution:

- OFAC Database Search
- ID Match
- Red Flag Alerts
- Synthetic ID
- Military Lending Act (MLA)
- ID Verification
- Out of Wallet Questions

What is synthetic fraud?

Synthetic ID is a type of identity theft where a fraudster utilizes a combination of both accurate and false personal data to create a synthetic identity, such as: a name, address and stolen social security number. This combined information is used to build an identity and send an inquiry to a credit bureau, causing the bureau to create a new profile for this seemingly new 'synthetic' individual. Fraudsters then use this new identity to make purchases – including vehicles.

How the 700Credit Synthetic Identity Solution Keeps You Safe

Find Previously Undetecable Risk

Evaluate Behavior Consistent with Synthetic Fraud ID

Uncover Connections to Real Identities

Driver's License Authentication

Protect your store with the industry's most advanced data capture and driver's license authentication solutions for automotive retailers today. We have 2 platforms for dealer's to authenticate customers – both remotely and in-store. Our solutions empower dealers to identify – and stop – fraud at the TOP of the sales funnel.

QuickScan from 700Credit is a powerful mobile document authentication platform that provides dealerships real-time confirmation of the legitimacy of a customer's driver's license and identity. Although it can be used in-store, it is particularly helpful when used to verify the identities of online car buyers and leads.

ID Drive from 700Credit & eLend Solutions provides dealers with the most comprehensive physical driver's license scanning solution for automotive dealers today. This platform combines our prescreen & prequalification platforms, and our suite of Identity Verification tools including Red Flag & Synthetic Fraud detection to deliver fast, accurate results.

HOW IT WORKS

With ID Drive, the customer's driver's license is scanned at the dealership.

The customer provides consent to have their ID validated.

Once verified (with the same technology used by the Department of Homeland Security) the customer's information is run through 700Credit's Identity Verification & Synthetic ID Fraud tools.

The QuickScan process begins with the dealer sending their customer an SMS link to their mobile device.

The customer takes images of the front and back of their document, along with a selfie and submits those for processing.

The images and selfie are run through powerful document authentication, identity verification, and synthetic fraud detection - giving you a result you can trust.

www.700credit.com

Soft Pull Solutions: What is a Soft Pull?

The term "soft pull" refers to an action where an inquiry is made on a consumer's credit file using name and address only. There is no social security number or date of birth required, and more importantly, it does not impact the consumer's credit score.

700Credit offers two kinds of soft pulls: a consumerinitiated or prequalification soft pull and a dealerinitiated prescreen soft pull. With a **prequalification**, the consumer drives the process and provides "consent" to have the soft inquiry pulled. These types of soft pulls can be found on dealer websites and digital retailing apps, in the form of buttons and banners strategically placed to receive the highest rate of clicks. Upon completion of the prequal form, the dealer is provided a FICO score, full credit file, and auto loan summary so they can provide "penny perfect" payment quotes with interest rate so the first call can be a closing call.

With a prescreen, dealers initiate the soft pull using the consumer's name and address (again, no SSN or DoB required) and receive a FICO score and auto loan summary so they have visibility into the consumer's credit profile and can provide an accurate payment with interest rate at the top of the sales funnel.

Current Mo. Payment

\$307

Months Remaining on Loan

10 mo.

Amount Owed on Loan

\$5,430

Interest Rate

5.6%

Valuable information is returned to a dealer with a soft pull:

- **Current monthly payment** gives dealers an idea of what the consumer is comfortable paying or can afford for a monthly vehicle payment. Dealers are then able to work the deal to provide a similar payment, or opt for an even lower payment and secure the lead.
- Months remaining on loan tells the dealer if there's potential for a trade-in vehicle and give them information to calculate equity in that possible trade. Dealers may also be looking for certain makes/ models of used cars for inventory, and may be able to incentivize more to get the desired trade-in vehicle.
- Amount owed on Loan indicates a buy-out amount. Dealers can find out what the consumer owes versus what the vehicle value is. In some cases, a consumer may opt to not share they have a potential trade-in vehicle a soft pull will reveal this information to the dealer.
- Interest Rate gives dealers an idea of a consumer's comfort level with interest rates. If desirable to the dealer, they are able to create deals at a lower interest rate for their consumer, or go higher if the consumer wants a short term lease and can handle the higher monthly payments.

Prequalification Solution: QuickQualify

QuickQualify is a web-based, lead generation platform that requires only the consumer's name and address and delivers to your dealership a FICO score and full soft pull, prequalification credit report. QuickQualify generates 3 to 4 times the number of leads over a typical lead form, delivering qualified sales leads through text, email, CRM or the 700Credit mobile app.

Prescreen Solution: QuickScreen

QuickScreen is a dealer-initiated soft-pull solution that does not require a customer's SSN or DOB and does not affect their credit score. QuickScreen can be integrated with many applications at your store, giving you visibility into your customer's credit profile before you work a deal, so you can work the right deal, right away.

and equity position	not purchase the vehicle	preventing a potentially	with a car they can afford
without posting a hard	at your store, resulting	uncomfortable situation	by approving them earlier
inquiry on their credit file	in new customers	or loss of interest	in the sales process

Learning Management System (LMS)

As the largest reseller of credit reports from all three bureaus – Experian, Equifax and TransUnion – 700Credit has always strived to provide comprehensive and automated compliance solutions to keep you compliant with every credit report pulled.

To further our efforts in providing the best compliance and risk mitigation services to our clients, we are pleased to introduce our new web-based, self-paced LMS which will provide the required training your dealership needs to remain compliant with every transaction and avoid costly fines.

The following 8 modules are included within 700Credit's LMS training platform:

ADVERSE ACTION • IRS RULE 8300 • PAPER FLOW • PRIVACY, SAFEGUARDS & DISPOSAL • RED FLAGS RULE • RISK-BASED PRICING RULE • UDAAP • OFAC

Compliance **Estimated Fine** Regirement for Non-Compliance Form 8300 and Reporting If you willfully fail to file Form 8300, you can be fined up to \$250,000 (\$500,000 for Cash Payments of Over \$10.000 corporations) or sentenced to up to 5 years in prison, or both. **Red Flags Rule** \$3500 maximum civil penalty per violation. Adverse Action Notices Liability for punitive damages is limited to \$10,000 in individual action and the lesser of \$500,000 or 1% of the creditor's net worth in class actions. The Fair Credit Reporting The civil penalties for noncompliance include Act paying up to \$1,000 in damages to the consumer. If the FTC takes civil action, the fine is a maximum of \$2,500 per violation. **Risk Based Pricing** Maximum penalties of \$4,111 per violation. Notices

ADDITIONAL GUIDED COMPLIANCE ASSISTANT COURSES (GCA):

- PRIVACY & SAFEGUARDS
- SALES, FINANCE &
 ADVERTISING (GCAFE)
- ENVIRONMENTAL, HEALTH & SAFETY (GCABE)

This LMS meets the guidelines set forth by the 3 major credit bureaus on the rules and regulations all businesses must follow when pulling a credit report and is required for every dealership that uses our credit report solution.

EQUIFAX
