

Credit Reports

BENEFITS OF PULLING A FULL CREDIT REPORT ON EVERY CLIENT

700Credit is the largest authorized reseller of credit reports from Equifax, Experian and TransUnion. Credit reports contain not only the consumer's FICO® score, but also important information from credit grantors, courts, and collection agencies regarding the historical loans by the consumer and public records such as judgments, liens, and bankruptcies.

Why your dealership should start pulling credit reports today.

You may not want or need a credit score to fund your next customer - but credit reports offer more than just that number. When you buy a credit report from 700Credit, you will have the ability to validate the customer's story and get a complete picture of who is sitting in front of you – beyond their credit score.

Credit reports provide you with the knowledge you need to make smarter funding decisions, and include everything you need to know about your customer's financial situation:

- **Debt to income ratio**
- **Recent payment history, including all delinquencies**
- **Identity Verification**
- **Auto loan summary, including any repossession**
- **Closed accounts due to non-payment**

Start benefiting from pulling full credit reports, & contact us today!
