## **700Credit Announces Integration with One View to Provide Direct, Secure Integration of Credit and Compliance Information**

*Secure sensitive customer data in compliance with the 2022 FTC Safeguards Rule*

**Farmington Hills, MI – March 12, 2024** – 700 Credit, LLC, the automotive industry’s leading provider of a credit, compliance and fraud prevention tools, today announced its alignment with One View, a leading provider of document management solutions for automotive dealerships. One View’s software solutions streamline document management processes and improve efficiency, accuracy, and compliance.

The integration provides mutual clients a direct integration to capture all documents from the 700Credit platform into the One View Vault digital document repository without the need to redundantly print and scan, helping minimize error and keep consistent long-term document retention. Additional documents may be added to the One View Vault portal by leveraging the Vault Web-Scan function or File Upload tool.

“This integration allows dealerships to store sensitive consumer information including credit reports and required compliance documentation through a secure integration into the digital deal jacket” said Ken Hill, Managing Director of 700Credit. “One View helps dealers maintain strict compliance with the 2022 Safeguards Rule by securely protecting customer data.”

"As the automotive industry continues to evolve digitally, it's becoming critical for dealerships to understand the complex landscape of where their documents are managed. We are proud to partner with 700Credit to integrate and digitally capture documents directly from the 700Credit platform." says Travis Peterson, VP of Products and Services. "Aligning ourselves with a top-tier organization like 700Credit gives our dealers an advantage when faced with the monumental task of document retention and compliance. We appreciate the 700Credit team for paving the way forward for dealers to manage their documents from any source, both physical and digital."
