Soft Pulls

The term "*soft pull*" refers to an action where a soft inquiry is made on a consumer's credit file using name and address only. Soft pull solutions **do not require a customer's SSN or DoB** and have **no impact on a customer's credit profile**. We have several soft pull solutions to choose from and help you engage consumers and speed the sales process, including:

QuickQualify (prequalification)

QuickQualify is a powerful "*call-to-action*" for your dealership website. This application requires only the consumer's name and address (*no SSN or DoB*) and provides dealers with a FICO® score and full credit report. Generate **3 to 4 times the leads** over a typical lead form and empower your sales team with the data they need to discuss qualified payment options.

QuickScreen (prescreen)

QuickScreen is a dealer-initiated soft pull solution that does not require a customer's SSN or DoB and does not impact their credit score. This solution can be integrated with many applications at your store, *giving you visibility into your customer's credit profile before you work a deal*, so you can work the right deal, right away.

Identity Verification & Fraud Detection

We are here to protect your store through our all-encompassing Identity Verification and Fraud Detection platform which includes the following solutions:

Identity Verification

Our platform is an automated solution that provides a summary table of results appended to each credit report. This vital service flags questionable information, focusing on high-risk applicants, social security numbers, driver's licenses and addresses. The 700Credit Identity Verification platform includes; OFAC Terrorist Search, ID Match, Synthetic Fraud, Military Lending Act (MLA), ID Verification, Red Flag, and Out of Wallet Questions (OOW).

Synthetic ID Fraud

A solution that uses proprietary logic and unique combinations of available data, the high-risk fraud score looks at a consumer's credit behavior and credit relationships over time to uncover previously undetectable risks. Dealers are returned a risk score with score factors to help determine if a new customer application is likely associated with a synthetic identity.

Income & Employment Verification

Combining the power of Experian's Verify™ product with The Work Number® from Equifax® and gain a more accurate understanding of a customer's financial standing. Dealers can now reduce risk and expand their coverage, offering lending decisions to a broader spectrum of consumers.

Driver's License Authentication Solutions

Protect your store with the industry's most advanced data capture and driver's license authentication solutions for automotive retailers today. We have **two platforms** for dealer's to authenticate customers – *both remotely and in-store.*

Mobile Scanner

Our document authentication platform, QuickScan, provides dealerships real-time confirmation of the legitimacy of a customer's driver's license and identity. This platform can be used in-store, as well as remotely when verifying the identities of online car buyers and leads. **Includes DMV validation and Deal Jacket integration.**

In-Store

ID Drive provides dealers with the most comprehensive physical driver's license scanning solution for automotive dealers today. This platform combines our prescreen and prequalification platforms, as well as our suite of Identity Verification tools (*Red Flag and Synthetic Fraud detection*) to deliver fast, accurate results.

Pre-Pair has integrated our soft pull prequalification solution (QuickQualify) into their platform. This brief guide will walk you through the consumer's experience getting started, providing the required personal information and getting prequalified. It will also cover how dealers are able to view their soft pull lead data in the Pre-Pair backend. If you have any questions, please call our 24/7/365 support desk at: (866) 273-3848 or email us at: support@700credit.com.

Out of Wallet (OOW) Questions

Out of Wallet (OOW) questions are designed to speed the verification process and keep your customers in your store. When a Red Flag alert occurs, your dealership must validate the person's identity. If you ask an applicant for additional forms of identity and address verification and they have to leave the store, you risk them not coming back.

- **Available:** OOW questions are available instantly and available for every applicant processed through our 700Dealer platform or through our affiliate partner's platform.
- **Added Security:** Multiple choice questions that would be hard for an identity thief to answer.
- **Instant Verification:** If the customer answers the majority of the questions correctly, their identity is verified and the alert is automatically resolved, allowing you to proceed with the transaction.

Risk-Based Pricing Notices

The Risk-Based Pricing Regulation affects dealerships whether or not they pull a credit report on their customers. The regulation is intended to improve the accuracy of credit information by alerting those consumers who may have negative information existing on their credit file.

Consumers are provided their score, how their score ranks nationally and some educational information on how to obtain a copy of their report and what to do if they find inaccurate information.

- Compliance is automated for this regulation
- Generated instantly with every credit report pulled
- Dealers can print or email from within the view credit report window
- Any consumer that the notice was not printed or emailed to, will be mailed their notice by the 700Credit mailhouse. Ensures people who never make it to the Finance office will receive a copy.
- Included in the Compliance Dashboard report to monitor activity
- RBPN Audit report available that shows every consumer who's credit file was access and how and when each consumer received their notice.

RBPN: Recommended Best Practices

- Consider a process where the RBPN is presented to the consumer during signing ceremony and have the consumer sign a copy and place in Deal Jacket.
- Add to your monthly audit check list that you utilize when auditing deal jackets.
- Consider delegating personnel to review notices that have not been delivered and emailing them to the consumer.
- Utilize the dashboard to monitor for printing and emailing of the RBPN, minimizing costs from RBPN's being mailed to the customer.
- The RBPN audit report can be run to show every customer a credit report was run on and how their RBPN was delivered.

Adverse Action Notices

Dealerships are considered creditors and are responsible for providing Adverse Action notices to customers that were not offered financing or consumers who were offered alternative financing but denied the offer. 700Credit has a solution that automatically keeps your dealership in compliance with Adverse Action obligations.

- Generated instantly with every report
- Stored on 700Dealer.com system
- Included in Compliance Dashboard report
- Print or email to the consumer
- Mailhouse supported

Adverse Action: Recommended Best Practices

- Review 700Credit's automation methods for minimizing manual efforts
 - Scorecard cutoffs, so top credit tier consumers never receive a notice
 - Automate the mailing of the notices for those consumers not mailed or emailed notices
- Add to your monthly audit check list that you utilize when auditing Dead deal jackets.
- Consider delegating personnel to review consumers who did not purchase a car for notices that have not been delivered and emailing them to the consumer.
- Utilize the dashboard to monitor for printing and emailing of the Adverse Action, minimizing costs from Adverse Action Notice's being mailed to the customer.
- The Adverse Action audit report can be run to show every customer a credit report was run on and how their Adverse Action was delivered.

OFAC Search

OFAC is a department within the U.S. Treasury, the Office of Foreign Assets Control (OFAC), and is responsible for administering and enforcing economic sanctions against suspected terrorists, drug dealers and money launderers.

Specifically, OFAC is a database which identifies Specially Designated Nationals (SDN) – those individuals or businesses linked with illegal activities – with whom an entity, including dealerships, are prohibited from doing business. This includes cash deals.

700Credit’s quick and easy OFAC solution screens your customers against the OFAC database with every transaction.

If a match occurs, 700Credit will assist your dealership employees with the necessary steps to remain compliant with the federal government’s regulations.

A “next steps” link will appear with instructions on how to resolve the issue, as shown to the right.
