## Welcome to 700Credit

700Credit is the leading provider of credit reports, compliance solutions, soft pull products, identity theft and driver's license authentication platforms for automotive, RV, Powersports and Marine dealers in the US. Our product and service offerings include credit reports, prescreen and prequalification platforms, OFAC compliance, Red Flag solutions, 2022 Safeguards protection, Synthetic ID Fraud Detection, score disclosure, Risk-Based Pricing and Adverse Action notices, identity verification, and mobile and in-store driver's license authentication solutions. With over 21,000 direct dealer clients, and 220+ software partners, we look forward to becoming your trusted credit and compliance vendor.

### Credit Report Solutions

We are the largest authorized reseller of credit reports from all three leading national credit companies, **Experian, Equifax and TransUnion**. All 700Credit clients receive their— choice of report format (HTML, enhanced, TTY or Merged Format), score, and ancillary products.

### Soft Pulls

The term “*soft pull*” refers to an action where a soft inquiry is made on a consumer's credit file using name and address only. Soft pull solutions **do not require a customer's SSN or DoB** and have **no impact on a customer's credit profile**. We have several soft pull solutions to choose from and help you engage consumers and speed the sales process, including:

#### QuickQualify (*prequalification*)

QuickQualify is a powerful “*call-to-action*” for your dealership website. This application requires only the consumer's name and address (*no SSN or DoB*) and provides dealers with a FICO® score and full credit report. Generate **3 to 4 times the leads** over a typical lead form and empower your sales team with the data they need to discuss qualified payment options.

#### QuickScreen (*prescreen*)

QuickScreen is a dealer-initiated soft pull solution that does not require a customer's SSN or DoB and does not impact their credit score. This solution can be integrated with many applications at your store, *giving you visibility into your customer's credit profile before you work a deal*, so you can work the right deal, right away.

### Identity Verification & Fraud Detection

We are here to protect your store through our all-encompassing Identity Verification and Fraud Detection platform which includes the following solutions:

#### Synthetic ID Fraud

A solution that uses proprietary logic and unique combinations of available data, the high-risk fraud score looks at a consumer's credit behavior and credit relationships over time to uncover previously undetectable risks. Dealers are returned a risk score with score factors to help determine if a new customer application is likely associated with a synthetic identity.

### Income & Employment Verification

Combining the power of Experian's Verify™ product with The Work Number® from Equifax® and gain a more accurate understanding of a customer's financial standing. Dealers can now reduce risk and expand their coverage, offering lending decisions to a broader spectrum of consumers.

### Driver's License Authentication Solutions

Protect your store with the industry's most advanced data capture and driver's license authentication solutions for automotive retailers today. We have **two platforms** for dealer's to authenticate customers – *both remotely and in-store.*

#### Mobile Scanner

Our document authentication platform, QuickScan, provides dealerships real-time confirmation of the legitimacy of a customer's driver's license and identity. This platform can be used in-store with QR codes, as well as remotely when verifying the identities of online car buyers and leads. **Includes DMV validation and Deal Jacket integrations. Deal jacket integrations allow you to incorporate a process where the consumer's driver's license never leaves their hands.**

#### In-Store

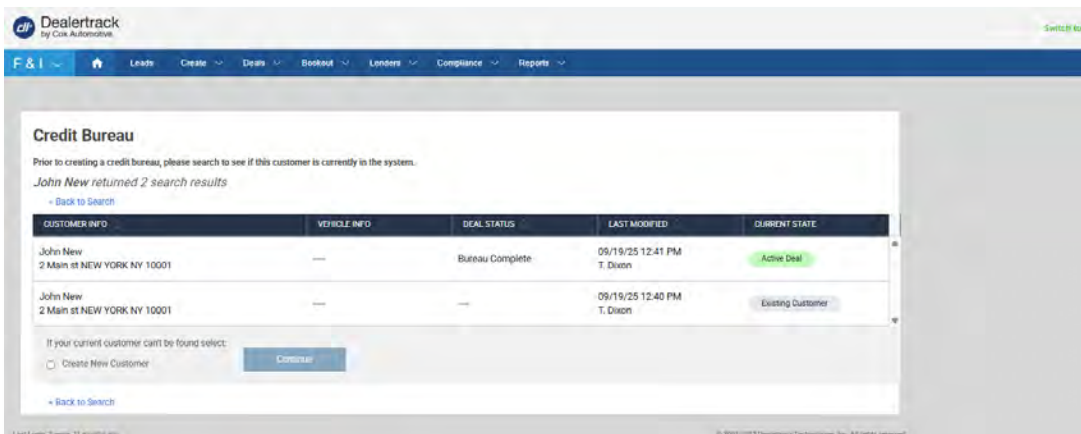

ID Drive provides dealers with the most comprehensive physical driver's license scanning solution for automotive dealers today. This platform combines our prescreen and prequalification platforms, as well as our suite of Identity Verification tools (*Red Flag and Synthetic Fraud detection*) to deliver fast, accurate results. **Includes DMV validation and Deal Jacket integrations. Deal jacket integrations allow you to incorporate a process where the consumer's driver's license never leaves their hands.**

**Dealertrack has integrated our credit reporting solutions into their platform. This brief guide will walk you through how to pull credit in the Dealertrack platform. If you have any questions, please feel free to reach out to our support desk at: (866) 273-3848 or email us at: [support@700Credit.com](mailto:support@700Credit.com).**

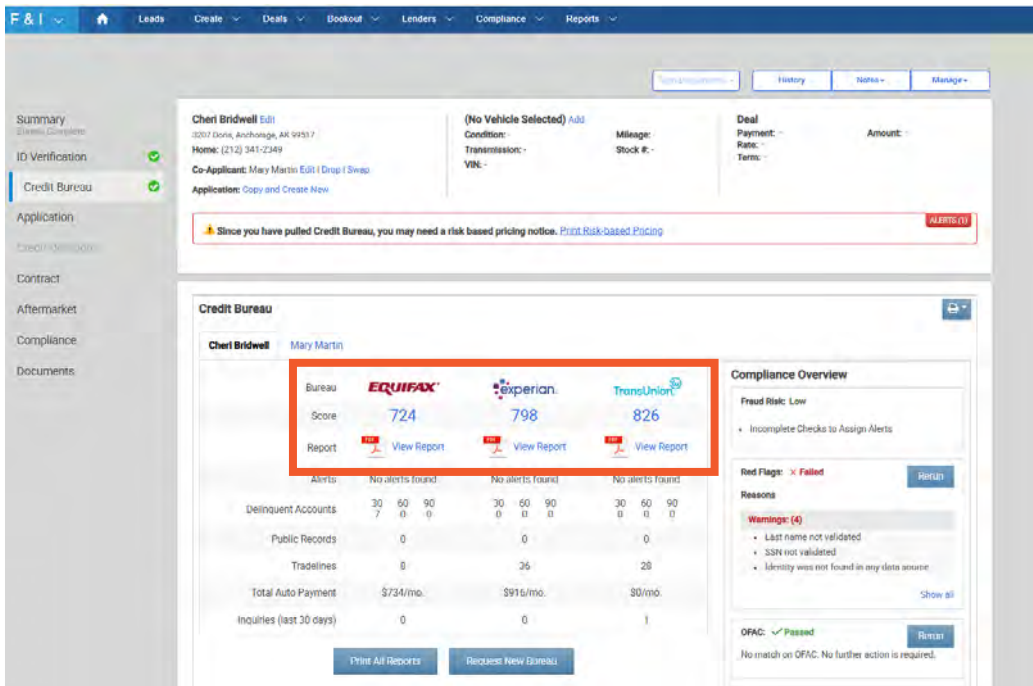

Credit Reports in Dealertrack

Checking for Existing Applicants

Before pulling credit, dealers want to ensure a credit report has not already been run on an applicant. Begin by selecting the desired applicant and opening their profile.

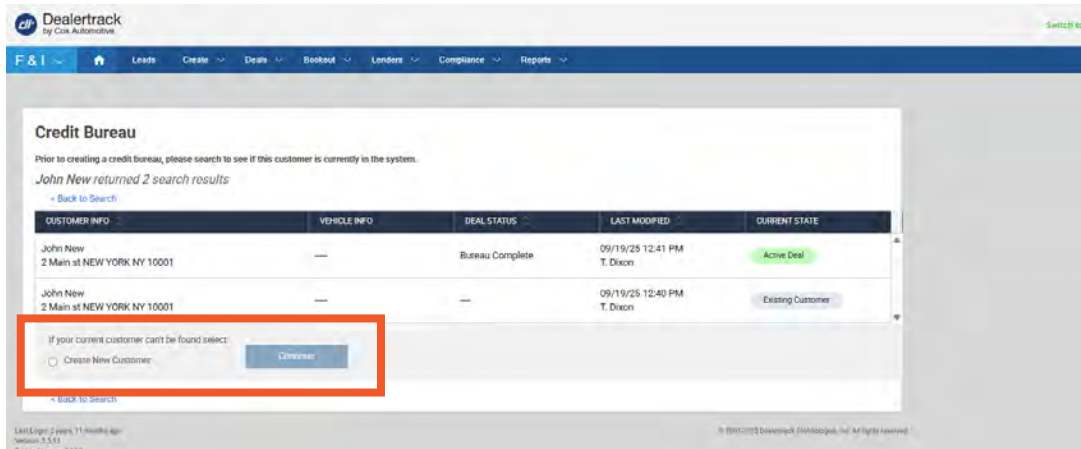

If a report has been run, dealers will be able to see a FICO score and “View Report” hyperlink, located under the bureaus’ logo. Select the hyperlink to open and view the report.

## Pulling Credit in Dealertrack

Begin by searching for a pre-existing consumer in the database – if found, click on their name to open up their profile. If the consumer is a new customer, check the **“Create New Customer”** radio box at the bottom of the window, and click **“Continue”**.
