when new leads arrive.**

Optimize interactions with customers to review and respond to lead and identity verification data on your mobile device.

QuickMobile Dealer App

The 700Credit QuickMobile Dealer App is specifically designed for easier management of a dealership's lead data generated by the following platforms:

- [QuickQualify](#)
- [QuickDocs](#)
- [QuickScan](#)
- [Digital Retail Partners](#)

When using QuickQualify, QuickMobile app dealers can:

- Receive alerts immediately on their mobile device when consumers submit a lead form from any of the QuickQualify platforms
- View applicant credit risk score and auto tradeline summary with a single click
- Optimize interactions with consumers through one-click text response and mobile dialing
- Text and email QuickQualify prequalification form directly to the consumer

When using QuickScan, QuickMobile app dealers can:

- Send a QuickScan Link to customers mobile allowing them to complete a scan of their driver's license for identification purposes
- Receive ID document verification results on the mobile dashboard

When using QuickDocs, QuickMobile app dealers can:

- Send a link to customer to upload Passport, Proof of Insurance, Trade-in Vin Image, Registration, Trade in Vehicle Image, Paystubs, Utility Bills, Mortgage statements or odometer image
